WILL GIVE 100 PER CENT SERVICE; WANT LOAFERS PUT TO WORK

Eureka Fire Brick Employees Sign War Output Pledge, and Ask Government to Look After Idlers.

The Eureka Fire Brick company has anticipated the plan suggested to the coke operators yesterday of obtaining pledges from their workmen to produce maximum output during the continuance of the war. At the same time the employees have taken the first step in Fayette county intended to direct attention of the government to the necessity for action to compel idlers and loafers to go to work.

At a meeting of the men at the Mount Braddock plant yesterday forenoon, General Manager Herbert Watson asked that all officials and employees sign the following pledge:

"For ourselves and our company we the undersigned officers and employees, pledge the prompt production and delivery of the largest quantity of material that is or shall be required by the United States government for the necessities of itself and its allies, and agree to all this in accordance with the request of the War Industries board."

The employees comprising the day shift signed to a man, and a resolution was adopted by the meeting declaring that, while the employees are doing their part to help win the war, the government should take some action relative to men, both old and young, who are able to work but are loafing and idling about day after day.

The signers to the pledge were given a handsome button bearing the legend, "I am doing my part toward winning the war." This button is to be worn only so long as the wearer complies with the conditions of the pledge. The observance of the conditions will be looked after by two committees, one consisting of men, of whom Mansell Hammit, George Hixbaugh and Doll Yeager are members, and one of boys, consisting of Archie Gordon, Walter Martin and Joseph Bell.

lend every energy and effort to securing a 100 per cent output. In turn he proposed that at each plant a similar pledge be secured from the individual workers; that a plant committee be named to secure these pledges and also to make inquiry into every case of failure of men to report for work, ascertaining the cause and, if an avoidable one, to appeal to the patriotism and self-interest of the man to practice greater industry. It was Mr. Blauevelt's opinion that at least 75 per cent of the men would willingly sign such a pledge, while the other 25 per cent, under the stimulation of their fellow workers, would come around in due course.

Mr. Blauevelt stated that the improvement in coke service, which has been observable for some time, was traceable to the fact that the Railroad Administration receives daily re-

Invitations are out for the Junior-Senior banquet, which will be held in Reid hall on May 30.

In Aerial Mail Service.

The Elks of Scottdale have received a letter from Jack Bates, a former Scottdale boy who enlisted in the Signal Corps in December, saying he is one of the 18 chosen to be transferred to the aerial mail service between Washington and New York. He is now stationed at Washington, D. C., and likes the service and is getting along finely. Mr. Bates spent two winters in the Arizona desert, in the government reclamation service prior to his enlistment. Friends feel that this is quite an honor to have him identified with the first aerial mail service of the government.

Enters Carnegie Tech.

William Miller, son of Mr. and Mrs. John S. Miller, has enrolled at Carnegie Technical school, Pittsburgh, for the course that opens June 15. This course prepares the men to enter the officers' training camp.

MAKING OUR GIFTS WORTHY.

While the purchase of Liberty bonds was an evidence of a patriotic interest in our country, and of a desire to render substantial aid in winning the war, the fact cannot be lost to sight that the transaction had in it more elements of an investment than it had of a gift. Until the Liberty bonds were sold, when they were arranged for the purchase of bonds it was with a firm faith in the integrity and ability of our government to repay the principle and also the interest as it became due. Except as meeting the payment may temporarily deprive some bond buyers of the use of funds or earnings they were previously accustomed to employ for other than purposes of investment, they will suffer no inconvenience or hardship. This sacrifice that voluntary giving up of some valuable or cherished thing for which no material recompense is or can be expected cannot be said to have been practiced by the bond buyers. To loan the government money through the purchase of bonds was in a large sense a privilege, while it was also a patriotic duty, just as it is the patriotic duty of every citizen to render support in every form and to the limits of their ability to every measure or object designed to insure a speedy and victorious ending of the war.

But the obligations resting upon us have by no means been discharged, even if we are of the number of those who have assisted to make all three of the Liberty bond issues successful. This campaign now on for the Second Red Cross War Fund is merely another opportunity for us to more nearly measure up to the stature of self-sacrificing patriotic citizens. The claims the Red Cross has on our generosity were never so compelling; its needs were never so great; the mission it is performing was never so boundless in opportunity for the exemplification of all that we as a Christian people and nation stand for. The request for a second fund to continue the work of mercy this agency is performing should, therefore, be considered by every citizen as more than an appeal; it should remind us that we are under a sacred obligation, contracted by the imperative duty to respond to the spirit of self-sacrifice and glad service.

That is the spirit of our men who have donned the khaki; it is the spirit of the Red Cross workers who follow the soldiers wherever duty calls them, sharing all the dangers, privations and hardships in the unselfish desire to be near at hand "When a Feller Needs a Friend."

In comparison with this willing yielding up, this complete forgetfulness of self, on part of our boys and the Red Cross workers, ought not we to forever hang our heads in shame if we do less than give to this holy cause, and give, and give until we feel and know that we have in truth delivered ourselves of luxuries and comforts, yes, even of these things, we were accustomed to count as necessities before the greater necessity came upon our sons and our neighbors' sons to give their all?

When we can thus realize that their needs are our opportunity for real sacrifice, then, and then only, will the gift we make be accounted as worthy.

In the case of the Red Cross campaign, a good beginning will make every a better ending.

In the primary today some of the candidates will receive only secondary consideration.

"Germans are Dealt Crushing Blow by French in West," is another of the reasons for "Hindy's" delay in starting the next Big Push.

"The Greatest Mother in the World" has a spacious pocket. Help to fill it again.

The shipyard worker who holds the best living record at the end of the season is going to be very much more of a hero and vastly more valuable as a citizen than the man who holds the best batting average, tennis championship or other similar title.

Giving your dollars early in the Red Cross campaign will make them do double duty, your own and that of helping somebody else to loosen up.

Cut Out Useless Work

We all know, in a general way, that some men are engaged in nonessential work in every town in the country. In Athens, Ga., a census was taken to find out the exact wastage of muscle that could be turned to war-work. It was found, according to conservative reports, that the nonessential house servants alone, in that town of 20,000 people, could furnish the labor for cultivating enough land to produce at a moderate yield 70,000 bushels of corn.

There is only one test to apply to any human effort today for the determination of its value—and that is, Does it help win the war? Usually within a few hours' ride of towns where men are engaged in work that is utterly useless from a war-winning standpoint there are farmers seeking labor to produce crops—crops that will help win the war—crops without which we cannot win the war.

In every town local public sentiment can cause these nonessential workers to go to farms and help win the war. Do you suppose Hindenburg is losing sleep over the surplus servants in Athens, Ga.? Do you suppose the Kaiser worries because a town of 20,000 keeps enough useless help to produce 70,000 bushels of corn—if they were on farms? But, when Athens, Ga., actually has 75,000 additional bushels of corn to show for the work of the useless servants—when every town in this country has taken husky men from such jobs as running elevators, standing in liveried glory in front of hotel doors, checking grips, driving taxicabs and doing a score of things women can do or the public can do without or individuals do for themselves—then the blasphemous brag of Berlin and his companion butchers will find in Athens, Ga., something fearful and forbidding—something to give them the dread that comes to all beasts when they sense the real arousing of a superior foe.

Our town is Athens, Ga. Every town is Athens, Ga. That particular place is named here merely for the sake of illustration, because it happens that Georgia extension workers took a careful survey there and the figures are available as substantiation of general statements applicable to practically all towns in the country. You know we can't win the war without food; you know food can't be produced without farm labor.

As long as our town continues to employ men in nonessential work while farmers in the county need help, you haven't gone to war! You may buy Liberty Bonds and give to the Red Cross, but you are not at war when farmers seek help and you continue husky men in needless work. Your windows may fly round service flags, but you are contributing to the Hun's effort to crown with sombre crepe those brave banners.

After the survey Athens, Ga., was asked these questions: "Have you a boy in camp or fighting in France? He is washing his own clothes, doing his own dressing, cleaning up his own place of abode and working many hours per day in the midst of danger. He is doing these things without useless servants. Are you better than your boy? Do you want him to do your fighting and be his own servant, and at the same time go hungry, because your surplus servants were not sent to farms to grow food for him?"

You must answer that. Our town must answer it. Apply the acid test: Is this work of war value; can the man now doing this nonessential work do valuable work on a farm? On that basis Athens, Ga., found between 300 and 500 men uselessly employed in a town of 20,000. For example, the survey shows forty licensed chauffeurs, with the conclusion that thirty-five are nonessential. Women could take their places or owners could drive their own cars. These men handling farm tractors would be really helping to win the war. Eight men were running elevators, all of farm qualifications, and all listed as nonessential, because in another office building in Athens girls are already running the elevators most satisfactorily. Eighteen males who make their living shining shoes were listed as nonessential workers upon the theory that neatly polished shoes in Athens, Ga., do not help the American Army break through to Berlin, whereas these eighteen strong men at work in the fields to produce food will help us to win—the Athenians shining their own shoes the while it necessary!

And so the survey continued through various classifications—useless deliverymen, soft-drink dispensers, surplus servants. And farmers not far away desirous of labor to produce war crops!

"Will our town do as Athens, Ga., declared, it would—turn nonessential town workers to an activity that will really amount to something in this war?"

SISTERLY.

Every—I wonder why Helen looks in the glass so often?

Lorraine—Maybe she has a grudge against herself.

SUMMER SHOE TIME

The summer season is fast approaching and it is time to be looking up the summer footwear. If you have never visited one of our shoe departments, this coming summer would be a good time for you to do so. In every one of our sixty-three operating stores we have a high class shoe department, and they are filled with high class goods for men, women, misses and children. There is something really interesting about our shoe departments. If you hear the story of how we have them made specially, how the stores are supplied, and how they are sold, and then after all that if you should see the shoes it would be no mystery or no conundrum why we have such superior stocks and why we have so much lower prices than the general run of shoe stores. There are just at the present time some novel things for women and misses in fancy colored high top shoes; also low tops, good colors remember; some with colored vamp and various colored tops. Then you will find the white high tops, and all the different fancy shades in oxfords for women, misses and children. There is white duck, also white leather, and black leather. It would be an endless job to describe them—a better way would be for you to see them. We respectfully solicit your business.

THOUSANDS JOIN IN RED CROSS PARADE AT MOUNT PLEASANT

Great Procession is Feat-
ured by Presence of Sol-
diers' Relatives.

BROTHERS AND WIVES MARCH

Unprecedented Enthusiasm for the
Cause of War is Shown in Dem-
onstration Designed to open the Red
Cross War Fund Campaign; Notes.

Special to The Courier

MOUNT PLEASANT, May 21—A
credit to chairman of the parade
committee, T. O. Anderson and to the
town was the parade that opened the
Red Cross War Fund campaign last
evening. The crowd was one of the
largest that ever gathered in the
town. The parade had a 500 persons
in line and required one hour to pass
the reviewing stand. It was so large
that Church street from Washington
street to Walnut street and Walnut
street to Eagle and Eagle street to
Main and part of Main street were
used for the formation.

The procession was headed by Ch of
Marshal Samuel P. Stevens and his
aides James McGee, J. Hunter Gamble,
Frank Simpson and Frank Dullinger.
They were followed by men carrying
flags of the Allies. Every minister
in town was in line. The following
took part:

The Municipal band, 130 mothers,
wives and sisters of sons representing
some member of their family in the
service, Red Cross executive com-
mittee, the officers of the Red Cross
chapter the Red Cross hall bearing
placards. Keep the Ball a Boiling and
12 girls who took the money in the
flag that was given as free will
donations, 25 units from the Red
Cross chapters many with at least 50
members and most of them with their
own musical organizations the
town's original drum corps and Jun-
ior Company E in charge of Captain
John C. Mullen with John Heffling
and Superintendent H. H. DeLong as
aides, the Mount Pleasant public
schools, the Polish and Slavish
schools, Miss Elizabeth Donet, su-
perintendent of the Memorial hospi-
tal, with her nurses and graduates
with their service flag and nurses
awaiting calls to the front.

The second division of the parade
was led by the members of council,
the Scottdale G. A. R. band, the Pro-
tected Home Circle the Kobacker
store force with the store service flag
the Patriarch Militants the Old Fel-
lows, the Red Men, the Moose the
colored band, Italian societies, Slav-
ish societies, the Mammoth band,
the Bohemian societies, the church
service flags, citizens and floats the
most important of which were those of
the various Frick works the Rebe-
kks, the Belgian orphan shown in be-
half of the Belgians adopted by the
Church street schools, the L. E. Smith
unit and the Kaiser's goat.

The town was beautifully decorated
and headquarters were opened at the
office of the secretary of the War
Fund campaign, A. S. Overholt.
Draftees Leave Saturday.

The 140 draftees will leave Mount
Pleasant Saturday morning at 8
o'clock sharp over the Baltimore &
Ohio. They will report at the army
at 6 o'clock.

OVER 80 YEARS BUT IS RUGGED

Mrs. Robbins Looks and Talks Like
Woman 20 Years Younger.

Mrs. Isaac Robbins, of River street,
Coudersport, Pa., woman over 80 years
old said recently:

I suffered dreadfully with rheuma-
tism. Last winter I had a very severe
case of grip which simply aggravated
my rheumatism. My hands and arms
were swollen terribly and they were
so sore I never thought I would
be any better.

I read about the good that Tanlac
had been doing for others and I got a
bottle.

Tanlac has removed every bit of
pain and I do not have a bit of rheu-
matism now. My appetite is good and
since the pain stopped I sleep like a
child. The swelling has gone too. My
arms are now like they should be and
I feel as young as ever I did.

"I recommend Tanlac because it did
me so much good that perhaps, it will
help others like it did me. I am will-
ing to talk with any poor sufferer that
wants to know more about it before
trying it. I think it wonderful."

The famous Tanlac is now sold here
by the Connellsville Drug Co.
Tanlac can also be secured in Dun-
star at D. C. Eason's Drug Store—Adv.

EVERY MEAL A POISONOUS INJECTION

Few folks suffering from kidney and
bladder troubles ever think that the
meat which they are taking are hav-
ing their death. Every morsel of
food taken gives up its quantity of uric
acid. This poison is taken into the
system through a diseased condition
of the kidneys and bladder. In the
healthy man nature provides an out-
let for this poison. Those in ill health
must take a medicinal help to drive
this death dealing poison from the
system. For over 200 years GOLD
MEDAL Haaslem Oil Capsules have
been doing this work. They effect
prompt relief in all diseases arising
from kidney and bladder troubles.
Don't put off this vital matter of at-
tending to your health until it is time
to make your funeral arrangements.

GREAT NEED FOR HOME GARDENS CALLS FOR MORE WORK IN EVERY BACK YARD

Home Food Plots Like These Help Table and Pocketbook—They Help Nation, Too.

"The obligation of every man, woman and child out of uniform to help feed himself will be greater in 1918 than in 1917. Therefore the home gardening and canning activities of last year must be repeated."

This is the message of the United States Department of Agriculture to every family. Those who cannot produce can conserve and save food. There must be no backsliding among experienced gardeners; they must repeat their contribution of food. Absence of novelty must not deter those who tried gardening for the first time in 1917 from capitalizing their increased knowledge and skill. Those with experience must make every seed count—to get satisfactory returns from their work with hoe, rake and watering can. There must be no slacking off. Gardening is everybody's business, but in 1918 everyone must attend to that business.

And now a word of caution. Don't try to raise more than you can use. And water systematically all spring and summer. A few square yards well tilled will yield more than a half-acre allowed to run to weeds.

The department advises strongly against effort by amateur gardeners to produce truck crops for sale. Such enterprises commonly prove unwise, burdensome to all concerned, and not infrequently financially unprofitable.

Much precious seed and fertilizer—to say nothing of time and labor—were wasted last year in such undertakings. The government's home gardening specialists believe that best results will be attained if each family attempts to raise only enough vegetables to supply its own table and to afford the surplus

which its members can dry, can, or store for later home consumption. The gardener who has provided for the immediate needs of his family and its canning and drying requirements therefore should devote attention to fall crops of root vegetables such as potatoes, beets, late turnips, carrots and parsnips, which can be stored easily for later use. It also would be well to give attention to the production of mature lima or other beans which can be shelled and kept in bags.

Help on Home Food Plot. The garden specialists of the Department and of the State Agricultural colleges stand ready to help everyone make the greatest possible success of his home garden and to assist in the canning of surplus food.

With the co-operation of the press, the department will carry the gardening advice of its specialists directly to many millions of readers. To supplement this "Food From Your Back Yard" series, of which this article is the forerunner, the department has issued two new war garden bulletins for every home gardener who wishes to help feed himself. They are:

"The Farm Garden in the North," Farmers' Bulletin No. 937.
"Home Gardening in the South," Farmers' Bulletin No. 934.

"The City and Suburban Vegetable Garden," Farmers' Bulletin No. 936.

Your postal card to the Division of Publications, U. S. Department of Agriculture, will bring your free copy.

Read these articles as they appear. Study the handbooks around the winter lamp. You will be ready to deal with soil and seed as soon as spring weather permits.

HOW TO GROW Asparagus.

This crop is one of the most enduring and satisfactory vegetables. It can be grown on almost any well-drained soil, but will prosper on a deep sandy loam. There is little possibility of having the ground too rich, and liberal applications of partly rotted barnyard manure should be made before the plants are set. The seeds of asparagus may be sown during the spring in rows where the plants are to remain, and the seedlings thinned to stand 14 feet apart in rows.

It is usually more satisfactory to purchase two-year-old roots, as considerable time is saved in this way. As the asparagus bed is a permanent feature of the garden, it should be located accordingly. Before setting the plants the soil should be loosened very deeply, either by subsoil plowing or by deep spading. It is a good plan to remove the top soil and spade manure into the subsoil to a depth of 14 or 16

inches. The plants may be set in rows for horse cultivation or in beds. If in rows they should be set 14 inches apart, with the rows 3 1/2 feet apart. If in beds, one foot apart each way is the proper distance to set the plants. In setting the plants the crowns should be covered 4 or 5 inches deep.

In the North the plants should receive a mulch of 4 or 5 inches of manure in winter. In the South the mulch is not necessary, but the plants should receive a coat of manure or an application of fertilizer, preferably in autumn.

No shoots should be removed during the first year the plants are set in the permanent bed, and the period of cutting should be short during the second year.—U. S. Department of Agriculture.

Noncommittal.

"Jones, told me this morning his fiancée was 'light-headed' and I said, 'Is she? I am afraid he didn't like it.'"

"Why weren't you more sympathetic?"

"Because I couldn't tell whether he meant she was a blonde or delirious."

Patients Given Personal Attention

Private, individual treatment for each patient is a vital factor that contributes to the high percentage of successful results achieved by my treatment.

It is well to remember that no two patients are given the same course of treatment. Every patient's treatment is planned and carried out according to the individual needs of his or her particular case.

Dr. R. W. Mackenzie.

I treat successfully these conditions:

URINARY OBSTRUCTION is a very annoying and injurious disease and it has a harmful effect upon the whole urinary system. I treat each case according to its requirements.

SPECIAL DISEASES—itching, burning, scalding, painful passages of water respond promptly to my treatment. It is scientific.

BLADDER AND KIDNEY DISEASES—Painfulness under eyes, pain in back, headache, vertigo, swollen extremities, cloudy flakes and deposits in urine, are all quickly removed by my special treatment.

PILES are small vascular tumors and they have a most degrading influence on the health. I treat piles without cutting. My treatment is safe and painless.

NERVOUS DEBILITY is a weak and exhausted condition of the nerves and motor centers. No one can be strong and robust if his nerve system is impaired. My treatment soon stops nervousness, mental debility and weakened vitality and you should not delay if you are suffering from these symptoms.

GOOSE OIL FOR BLOOD DISEASE—If you have inflammation of the mucous membrane in mouth and throat, eruptions on any part of the body, ulcers, itching of bones, spots or all discolorations of the skin, you should come to me and receive this now famous remedy. All symptoms vanish as by magic.

HYDROCELE results from injury and is sometimes difficult to distinguish from rupture or varicocele. The remedy completely obliterates the tumor at once.

Across the Seas They Call

ACROSS the seas from every war-torn nation in the Allied cause there comes the call for Red Cross help.

It comes from soldiers who have grimly faced the gleaming bayonet steel and poison gas and screaming shells, and who now lie with parching throats and throbbing wounds.

It comes from soldiers sick with fever, pneumonia, tuberculosis.

It comes from soldiers crippled, mutilated, blinded, who can no longer fight and must be taught and trained for useful occupations.

It comes from the underfed, shivering, helpless prisoners in the German prison camps.

It comes from little children, orphaned, homeless, slowly starving day by day, by tens and tens of thousands.

It comes from mothers in the pillaged zones of war whose hearts and souls have been made numb with horror.

From all these millions of suffering human beings there comes across the seas the call for help—help that because of the frightful burdens placed upon our Allies *cannot be given unless it be provided by the American Red Cross.*

Another hundred million is needed to "carry on."

What will America's answer be?

Every cent of every dollar received for the Red Cross War Fund goes for War Relief.

The American Red Cross is the largest and most efficient organization for the relief of suffering that the world has ever seen.

It is made up almost entirely of volunteer workers, the highest executives being without exception men accustomed to large affairs, who are in almost all cases giving their services without pay.

It is supported entirely by its membership fees and by voluntary contributions.

It is today bringing relief to suffering humanity, both military and civil, in every War-torn allied country.

It plans tomorrow to help in the work of restoration throughout the world.

It feeds and clothes entire populations in times of great calamity.

It is there to help your soldier boy in his time of need.

With its thousands of workers, its tremendous stores and smooth running transportation facilities, it is serving as America's advance guard—and thus helping to win the war.

Congress authorizes it.

President Wilson heads it.

The War Department audits its accounts.

Your Army, your Navy and your Allies enthusiastically endorse it.

Twenty-two million Americans have joined it.

Uncle Sam's Food Lessons

(Special Information Service U. S. Department of Agriculture.)
MAKE A LITTLE MEAT GO A LONG WAY.

Don't think that you must eat a lot of meat to be strong. Meat is good to help build up the body, but so are many other foods.

In these dishes part of your building material comes from the more expensive meat and part from the cheaper peas, beans, hominy, and barley. The little meat with the vegetables and cereals will give your body what it needs.

Savory Stews and Meat Pies.

Do you know how good they are? They may be so varied that you can have a different one every day in the week, and all of them delicious. It needs only a small piece of meat to give flavor to a hearty dish.

Try them. They can be a whole meal and a nutritious one. These recipes serve five people.

Here is an English stew that is especially good:

Hot Pot of Mutton and Barley.

One pound mutton.
One and a half cups pearl barley.

One tablespoonful salt.
Four potatoes.
Four onions.

Celery tops or other seasoning herbs. Cut the mutton in small pieces, and brown with the onion in fat cut from meat. This will help make the meat tender and improves the flavor. Pour this into a covered saucepan. Add two quarts water and the barley. Simmer for one and a half hours. Then add the potatoes cut in quarters, seasoning herbs, and seasoning, and cook one-half hour longer.

Beef Stew.

One pound beef.
Four potatoes cut in quarters.
Quarter peck peas or one can.
One cupful carrots cut up small.
One teaspoonful salt.

Cut the meat in small pieces and brown in the fat from the meat. Simmer in two quarts of water for one hour. Add the peas and carrots and cook for one-half hour, then add the potatoes. If canned peas are used, add them ten minutes before serving. Serve when potatoes are done.

Different Stews.

Here is the way you can change the stews to make them different and to suit the season:

1. The meat. This may be any kind and more or less than a pound may be used. Use the cheap cuts, the flank, rump, neck, or brisket. The long, slow cooking makes them tender. Game and poultry are good.

2. Potatoes and barley may be used or barley alone, or rice hominy, or macaroni.

3. Vegetables. — Carrots, turnips, onions, peas, beans, cabbage, tomatoes are good, canned or fresh. Use one or more of these, as you wish.

4. Parsley, celery tops, onion tops, seasoning herbs, or chopped sweet peppers add to the flavor.

5. Many left-overs may be used—not only meat and vegetables, but rice or hominy.

How to Cook the Stews.

All kinds of stews are cooked in just about the same way. Here are directions which will serve for making almost any kind.

Cut the meat in small pieces and brown with the onion in fat cut from the meat. Add the salt and pepper, seasoning vegetables (onion, celery tops, etc.), two quarts of water, and the rice, or other cereal. If it is to be used for an hour, then add the vegetables except potatoes. Cook the stew for half an hour, add the potatoes cut in quarters, cook for another half an hour, and serve.

The fireless cooker may well be used, the meat and the vegetables being put in at the same time.

Left-overs or canned vegetables need only to be heated through. Add them 15 minutes before serving.

Dried peas or beans should be soaked overnight and cooked for three hours before adding to the stew; or, better, cook them overnight in a fireless cooker.

Meat Pies.

Another good way to use a little meat. Have you ever used rice, cornmeal mush, or hominy for a crust? This is less work than a pastry crust and saves wheat.

Four cupfuls cooked cornmeal, rice, or hominy.

One onion, two cupfuls tomato, eighth teaspoonful pepper.

One tablespoonful fat.

One pound raw meat or left-over meat cut up small.

HIT HIM AGAIN.

Swat the Kaiser by Buying Another Liberty Bond.

Did you buy a Liberty Bond, and if you did, don't you feel that you would like to help Uncle Sam by buying another one? Go to the First National Bank of Connellsville and join the LIBERTY BOND CLUB. A dollar is all you need to begin paying for a bond. Don't miss this opportunity to strike a blow for liberty and at the same time make a splendid investment in easy weekly installments. Full information at the bank.—Adv.

One-half teaspoonful salt.

Melt the fat, add the sliced onion, and if raw meat is used, add it and stir until the red color disappears. Add the tomato, and seasoning. If cooked meat is used, add it with the tomato and seasoning, after the onion is browned, and heat through. Grease a baking dish, put in a layer of the cereal, add the meat and gravy, and cover with the cereal dotted with fat. Bake for half an hour.

Shepherd's Pie.

This is the name of a meat pie with a mashed-potato crust browned in the oven.

Try these recipes and cut down your meat bills.

U. S. DEPT. OF AGRICULTURE

HOW TO GROW

Turnips.

The turnip requires a rich soil and may be grown either as an early or late crop. For an early crop, sow the seeds in drills 12 to 18 inches apart as early in the spring as the condition of the soil will permit. A half-ounce of seed is sufficient for a 100-foot row. After the plants appear thin to about 3 inches apart. The roots will be ready for use before hot weather.

For late turnips, the seeds are usually sown broadcast on land from which some early crop has been removed, and for this reason the turnip is a good crop to grow for storage for winter. They are quite hardy, and the roots need not be gathered until after the first frost. They may be stored in banks or pits or in the outdoor cave or cellar, and keep best when kept rather cool.

The turnip is a good crop for interplanting between rows of late corn or late beans.—U. S. Department of Agriculture.

IN YOUR HOME GARDEN

"Dig deep, manure well, work often." This may be any kind and more or less than a pound may be used. Use the cheap cuts, the flank, rump, neck, or brisket. The long, slow cooking makes them tender. Game and poultry are good.

Enthusiasm must be backed by solid purpose—enough of it to surmount obstacles and survive disappointments.

The best insurance against accidents in gardening is knowing how to garden.

U. S. DEPT. OF AGRICULTURE

HOW TO GROW

Kohl-Rabi.

The edible portion of the kohlrabi is the thickened stem. It is closely related to cabbage and cauliflower. It should be started in the hotbed or window box and set in the open ground about the time of the last frost. The method of planting and the cultivation is similar to that practiced for cabbage. It can be planted in the open at the same time. Early sowings are made, and it thinned to 4 to 6 inches apart. The plants will soon grow to edible size under favorable weather conditions. This plant should receive much more consideration than usually is given it. It is really a poor man's cauliflower.—U. S. Department of Agriculture.

U. S. DEPT. OF AGRICULTURE

HOW TO GROW

Peppers.

Plant the seeds of peppers in the hotbed about six weeks to two months before time to set them in the open ground. They should be transplanted at least once, and should not be set in the open until the ground is thoroughly warm. When grown in the garden the large bell-shaped types should be placed in rows 3 feet apart with the plants from 15 to 17 inches apart in rows. Frequent shallow cultivation should be given, and the plants will continue to bear until frost kills them.—U. S. Department of Agriculture.

Senreco Tooth Paste Powerful To Save the Teeth and Prevent Diseases

"All dressed up with a hole in his shoe" was a bit of sarcasm a girl once said to a young man friend whose appearance was new except his pained, aching teeth. Right enough, too! Either to man or woman a shabby pair of shoes would spoil the appearance of the most elegant garments ever worn.

What about the teeth? Does in all the world you please, if you open your mouth exposing a decayed set of teeth, four rotten molars and right in the middle a hole in the shoe for you. This applies both to men and women. Girls, and young men, you lose half the admiration which would be directed toward you if you have bad teeth. You lose the pleasing with a mouthful of decay. The condition of the teeth have a telling influence on other organs of the body. Bad teeth affect the intestines, stomach, heart, and even the eyes. Medical science shows that bad teeth produce unhealthy conditions all over the body.

With Senreco Tooth Paste at your service, no scientific prepared preventive of pyorrhea—there's no need of falling a prey to these ills. No need of having a mouthful of decayed teeth. Used regularly on a set of good natural teeth, Senreco Tooth Paste will keep them in the best of health. If they should enter they can't exist long under its thorough cleansing properties.

Advocate clean teeth should be created by your dentist.

Senreco Tooth Paste as a preventive. Ask your dentist if you should not pay all attention to your teeth. Senreco Tooth Paste will cure pyorrhea. If you already have it, your dentist is the doctor. Even if you are afflicted with his terrible disease Senreco Tooth Paste will help you to get rid of it with your dentist's assistance. But we don't want you to contract any ailment of the mouth and teeth, nor does your dentist.

A preventive is far better than to have to go through the trials of a cure. Save your teeth by Senreco Tooth Paste and the probability is that you won't have to deal with foul and painful diseases. By taking excellent care of your teeth you may have a strong, beautiful, heart and eye troubles. Take all precaution to keep the teeth clean and do it with Senreco Tooth Paste, the latest discovery of dental science. Samples of Senreco free if you wish it. Senreco Tooth Paste, Cincinnati, Ohio.

REPUBLICANS

(Political Advertisement.)

Uniontown, Pa., May 21, 1918.

Gentlemen:

Every Republican should be concerned about the result of this primary. Every one should vote.

Mr. O'Neil is a candidate for nomination as governor on the Republican ticket and is supported by Governor Brumbaugh and his friends.

Mr. Sproul is a candidate is a candidate for nomination for the same office and is being supported by Mr. Penrose and his friends.

The issue is therefore clear—it is one candidate against the other; one set of Republican leaders against another set.

Governor Brumbaugh, as governor for the last three years, and the Republican leaders associated with him, forced through Penrose controlled legislatures more legislation in the interest of the masses and for the good of common humanity, than all the other governors of our state in 50 years.

Mr. Penrose and his associates would have impeached Governor Brumbaugh for doing so had they dared attempt it.

Governor Brumbaugh and the leaders with him framed the Workmen's Compensation Law. A widow for herself and nine children made claim under that law the other day for \$7,167.55. This is but one case in thousands in our state. The employer pays for this insurance. This law means much to every workman in the state, his wife and children. Penrose and his associates would not have given you that law. They attempted to amend it so as to make it less helpful.

Governor Brumbaugh forced the passage of the Child Labor Law. Mr. O'Neil is for that law. Mr. Sproul is against it. Vote your choice.

Governor Brumbaugh saved the Full Crew Law for the railroad men. He is asking the railroad men to vote for Mr. O'Neil.

Just as soon as the laboring men indicate that they will stand by those who help them so soon will they get more help. Penrose and his associates have never done anything for the laboring men.

Our county has suffered more from Penrose kind of politics than any other county in the state. It has cost our people hundreds of thousands of dollars and nothing but humiliation.

In return, Republicans:—
 Would you black the eye of Penroseism in our county? Then vote for O'Neil, Scott and Houck.

Would you help rid our state and nation of Penroseism in Republican politics? Then vote for O'Neil, Scott and Houck.

Would you make Mr. Penrose and his type of leaders serve the people instead of the liquor interests and certain soulless corporations which would grind out the lives of our children? Then vote for O'Neil, Scott and Houck; Aaron, Crage, Burks and Mitchell; Benson or Francis.

Men:—
 If anyone offers you a dollar for your vote or to stay away from the polls, please say to him, "So long as my boy is in the trenches giving his life for his country, I will not sell my country for the dollar."

It is your Christian and patriotic duty to vote your own better judgment.

O'NEIL, REPUBLICAN COUNTY COMMITTEE.
 A. E. Jones, Chairman.
 George Patterson, Secretary.
